# GENUINE PARTS & PART KITS

- Using Viking Genuine Parts ensures that your pump will work at the highest level of efficiency possible
- Ordering Viking Genuine Parts provides you with the parts needed to make your repair
- Our dedicated team of application engineers will help to make sure the parts you need are the right fit for your application
- Viking Pump Genuine Parts can be purchased individually or in convenient part kits
- Seal, Rebuild, Bearing, O-ring and other kits simplify general maintenance or a complete rebuild, from ordering and stocking to installation

## GENUINE PARTS ADVANTAGES

### Quality

- Extensive quality control
- Get the performance you expect
- Viking Genuine Parts are made with highly calibrated machines to ensure optimum reliability

### Design

- Factory-made to ensure it meets the exact requirements for your pump
- Parts available individually or in kits
- Genuine Parts are application-specific to meet your unique conditions
- Only Viking Genuine Parts are specifically designed to meet performance requirements for Viking pumps

### Support

- Local distribution to ensure fast delivery and service
- Viking backs all Genuine Parts with its own warranty and distributor network

## PART KITS ADVANTAGES

### Everything you need in one package

- Factory recommended parts to ensure repair is done correctly
- Kits available in Seal, Rebuild, Bearing and O-ring configurations

### Save time & money

- Viking Pump kits make rebuilds easier and more cost effective
- Average savings of 35% to rebuild instead of replace

### Reduce costly downtime

- Helps your repair technicians to know exactly what parts are needed to ensure your pump is working at peak performance

### Maximize service life

- Using Viking Genuine Parts ensures your pump will work to the technical specifications

# VIKING PUMP ADVANTAGE

- Viking Pump, Inc. has been making pumps and parts for over 105 years in Cedar Falls, Iowa
- With a vertically integrated manufacturing process, Viking Pump has the tools, processes and systems to produce our products in-house; from the initial engineering analysis, through design layout, foundry casting, machining, final assembly, testing and shipping
- Viking Pump utilizes state of the art manufacturing machines and processes to provide the highest quality product available
- Knock-off parts are not made with the precision or reliability that you can count on from genuine Viking Pump parts
